2. Pin and sew horns to the head.

3. Fold the ears in half and sew them together. Sew the ears onto the head, one stitch away from the horns.

4. Sew the upper and lower legs to the body. The upper legs should be slightly closer together than the lower legs. Position the upper legs at the level of the 2nd row from the top of the body, and the lower legs at the level of the 2nd row from the bottom.

****EMBROIDERING EYES & DETAILS****

1. Create a tightening on the nose (nostrils) by inserting the needle from bottom to top several times.
2. Mark eye placement with pins and embroider.
3. Create hoof divisions by inserting the needle from the bottom of the hoof to the center, bringing it out at the top near the color border. Make a few stitches on the front side and tighten to divide the hoof in half.

****SPOTS AND MANE****

Spots (Crochet in turning rows with 1 ch for lifting and turning).

****Mane****

Create the mane using pulled loops. Start at the back center where the head joins the body and work upwards towards the space between the horns. Then turn and work downwards.

****FINISHING****

Insert the elastic band along the entire perimeter of the lower body. Thread the ends through the cord stopper and tie. Hide all loose ends. The amigurio is complete.
